

New Hampshire WIC Nutrition and Medicaid Program Request for Special Formula and Authorization for WIC Supplemental Foods

For dually enrolled participants on WIC and Medicaid, NH Medicaid/Managed Care Organization (MCO) determines and provides special formulas. Healthcare providers should work directly with the participant's MCO for the requirements/additional forms/prior authorization for the provision of special formulas. Because WIC may need to provide the special formula prescribed temporarily a completed WIC Request for Special Formula form is needed. **Request for Special formula are subject to WIC approval. The continued need for a special formula will be re-evaluated on a periodic basis.**
